John J. Carney, Esq.

Carney Forensics

Criminal Vehicular Homicide and Injury

- State accuses Sarah of overshooting her planned exit by 80 miles, texting all the way.
- When she makes a left turn on a small highway to turn around and head back, she drives in front of two motorcyclists.
- The first motorcyclist collides with her car and the second collides with the first motorcyclist.
- One dies and one is permanently disabled.

Criminal Vehicular Homicide and Injury

- State's expert opines that after an accident, most people get out and check on others before calling 911.
- Since Sarah made her 911 call at 11:59AM, and she received her last text at 11:57AM, he opines she was very likely texting during or just before the accident.

Examine with Multiple, Upgraded Tools

- Cross validate mobile evidence with several mobile device forensic tools

“There is wisdom in the multitude of counselors”
- Proverbs

- Re-examine mobile device with upgraded tools unavailable months or years earlier
 - New mobile apps supported
 - New, better algorithms for recovering evidence
 - Bugs fixed in mobile device forensic tools

Examine with Multiple, Upgraded Tools

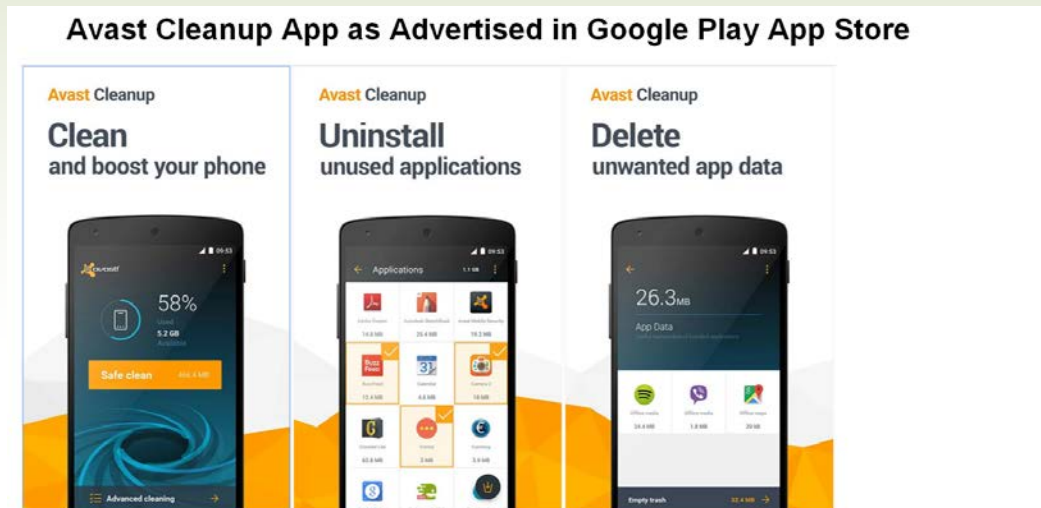

Text Messages Marked as “Open”

- Role of “read” or “unread” status flag
- Role of “read” receipt
- Neither proves automobile driver actually read text message
- Messaging app behavior when conversation or thread is already open on device
- Complex behavior of messaging app in use on lock screen
 - Use of other apps on lock screen at same time
 - Multiple phone settings control messaging app behavior on lock screen

Spoliation of Mobile Device Evidence

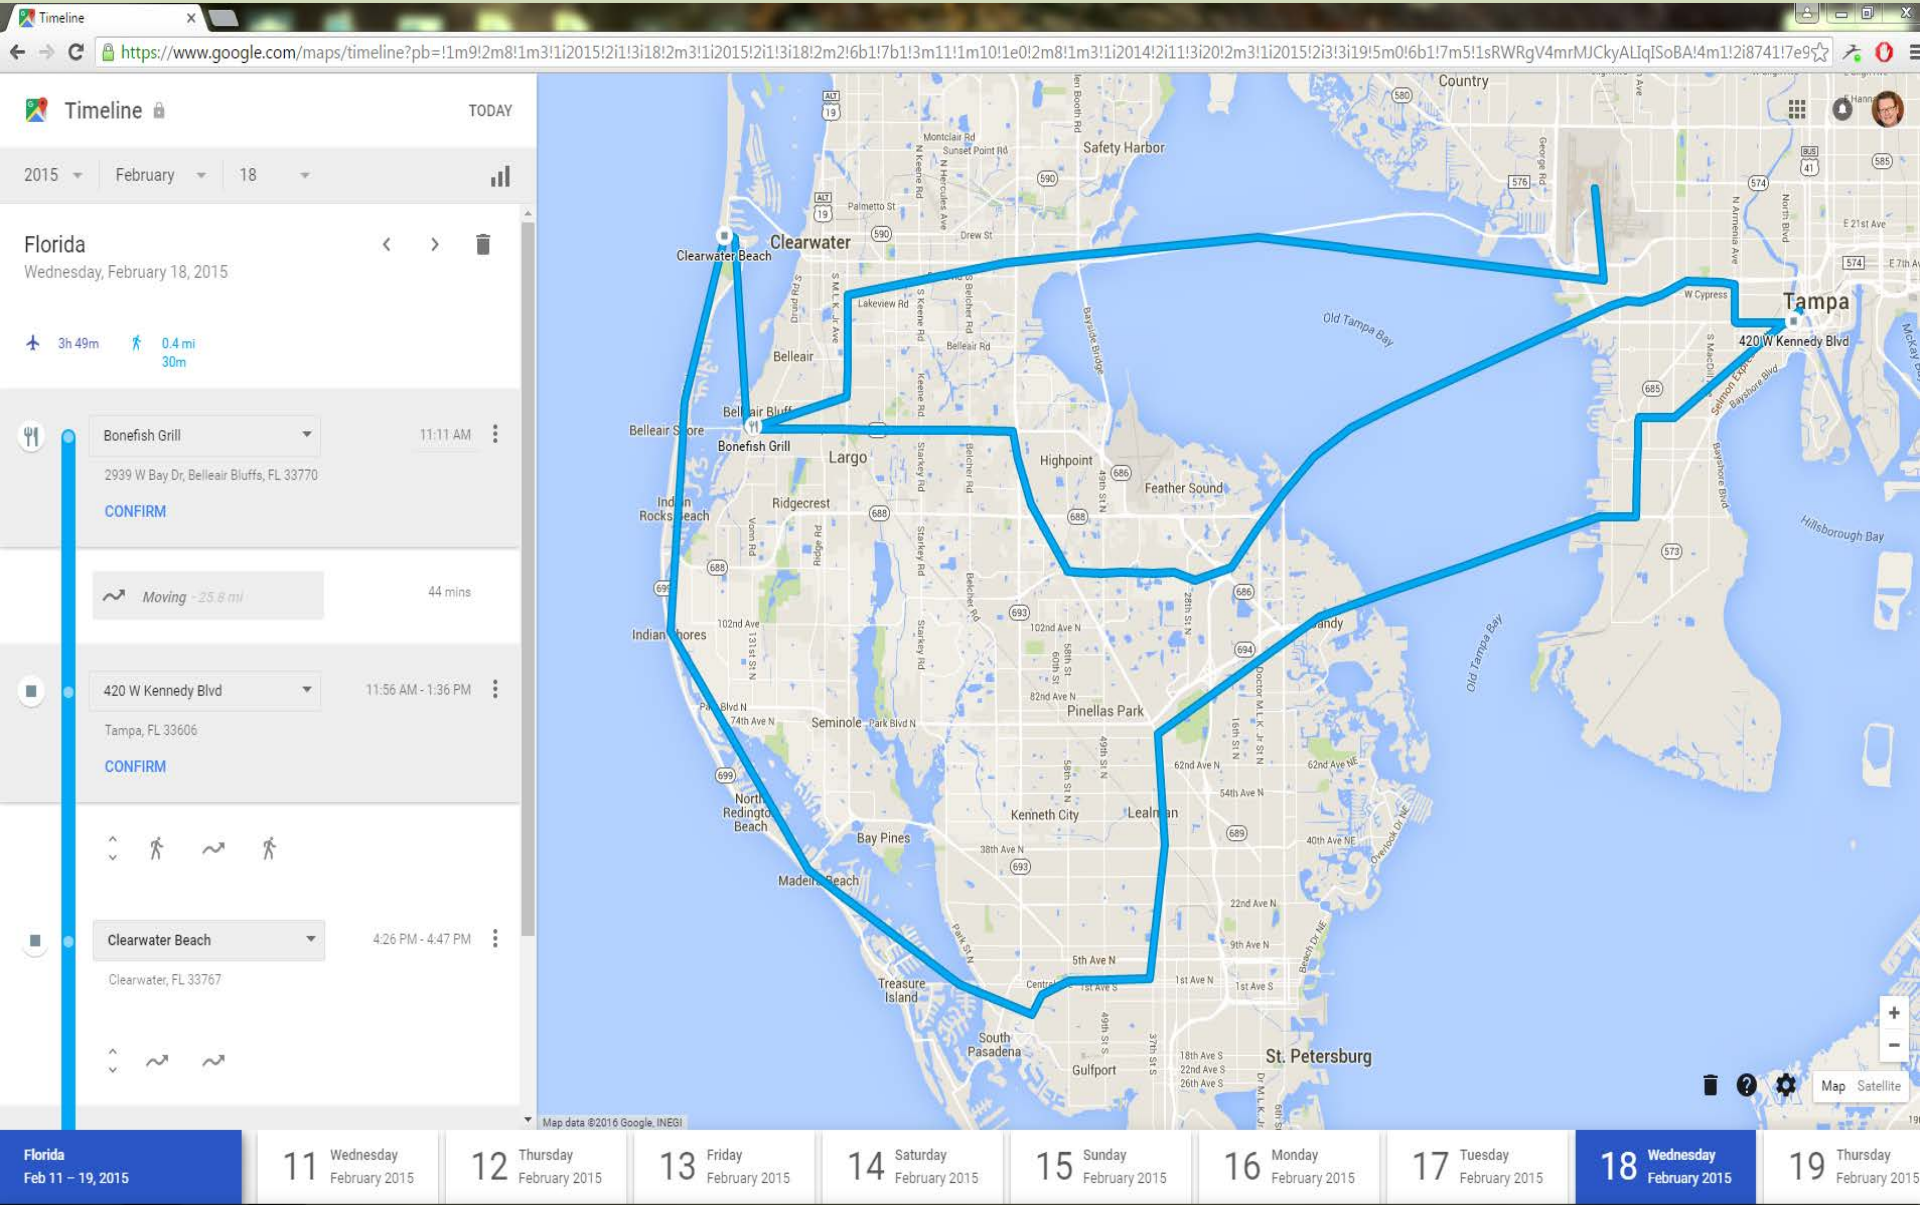

- Consider the possibility of intentional destruction of evidence
- Spoliation by resetting phone to factory conditions
- Spoliation by wiping phone remotely
- Spoliation by using third party “cleaner” apps

Examine Cloud for GPS Locations

- Apple iCloud Photos and Photo Stream
 - GPS locations in photo EXIF data
- Google Location History Tracked from Mobile Device
 - Passive GPS locations tracked every few minutes for past few years
 - More GPS locations are sampled when tracked mobile device is moving
 - GPS location time stamps are precise to second
 - Google shows compelling GPS location maps

Examine Cloud for GPS Locations

Obtain Phone Service Provider Biz Records

- Request and Persist to Retrieve Defendant's and Victim's Business Records
- Request Call Detail Records for Voice Calls
 - Date and time stamps to the second are critical
- Request Text Message Logs (SMS Logs)
 - Date and time stamps to the second are critical
